

Multimedia Memory Card Reader ExpressCard|34

Part No.
MMR-E34

Easy Access to All of Your Gadgets' Data

Sonnet's 21-in-1 Multimedia Memory Card Reader ExpressCard/34 is a Simply Fast™ solution for moving files from your electronic devices' memory cards to your notebook computer's hard drive, with no cables required. This handy device works with the most popular memory card formats, including Memory Stick™, MMC (Multimedia Card), SD (Secure Digital), XD-Picture Card™, and all their variations.

Wonderfully small, the Multimedia Memory Card Reader ExpressCard/34 inserts flush inside your MacBook Pro or Windows notebook's ExpressCard slot so you can store it there when it's not in use. Its ingenious design enables it to accept all the compatible memory cards through a single slot—just push the card in. When you're done transferring files from the card, just push it in further, and it pops out. Imagine transferring photos, data, games and music files from your memory cards—without cables, without another gadget to pack, and without draining batteries—at speeds up to 480 Mbits/sec!
