## Upgrade to G3 Performance

With the Crescendo/PB G3 installed in your Macintosh PowerBook 1400 series computer, Sonnet provides you with the performance gains of a G3. The Crescendo/PB G3 replaces the original 117, 133, or 166 MHz 603e processor card with a G3 card running at 333 or 466 MHz. High-speed Level 2 backside cache has been added to achieve the impressive speed improvements of this PowerPC™ upgrade. Applications perform tasks at faster speeds, giving you the power to be more productive and creative.

## Mac OS Compatibility

The Crescendo/PB G3 is compatible with your existing hardware, software, RAM, and peripherals. The Crescendo/PB seamlessly integrates with your system software, supporting from System 7.5.3 through Mac OS 9.1.

## Simple Installation

The Crescendo/PB G3 is easy to install with step-by-step, illustrated instructions. Simply open your laptop computer, remove the processor and replace it with a Crescendo/PB G3 upgrade card. Just that fast, you are PowerPC-accelerated!
