- ▶ Quick Start Guide
- ▶ 1-year ltd. warranty

Strength in Two

Looking to add an extra punch in performance to your daily iLife™, video editing, and GarageBand™ jamming sessions? Sonnet's Encore/MDX empowers your Power Mac G4 Mirrored Drive Doors (MDD) or Xserve G4 with the added speed to make the most demanding processor chores simple again. Featuring the dual processor performance of 1.6 GHz or 1.8 GHz, the Duet offers a boost in system tasks and application performance.

Power Served

Encore/MDX Duet is the world's first dual processor upgrade card for Xserve G4. Specifically designed to keep down-time to a minimum, the Duet is engineered to install easily into an Xserve so you can focus more time enhancing your server environment, not troubleshooting it.

Simple Installation

Installation is straightforward—just run an installer program and swap processors. Sonnet provides customer friendly, easy-to-follow instructions—lower the side panel of your G4 tower or remove the lid to your Xserve G4, locate the existing processor, and following Sonnet's detailed instructions, install the new processor card. Simple!

TECHNICAL SPECIFICATIONS
