

PRESTO PLUS

- Upgrade to a fast 68040 processor
- Break the RAM barrier
- Access the Internet
- Connect to an Ethernet network
- Run Mac OS 8.1
- 128K Level 2 cache built in
- Three-year limited warranty

The Perfect Performance Solution

The Sonnet™ Presto™ Plus multi-functional card brings essential hardware features to your Macintosh® Color Classic, LC or Performa® series computer. With the Presto Plus you finally have the processing power and memory expansion capabilities to run web browsers, large applications, and educational programs. The built-in Ethernet port is perfect for schools and individuals wanting to hook up to the internet through an Ethernet network.

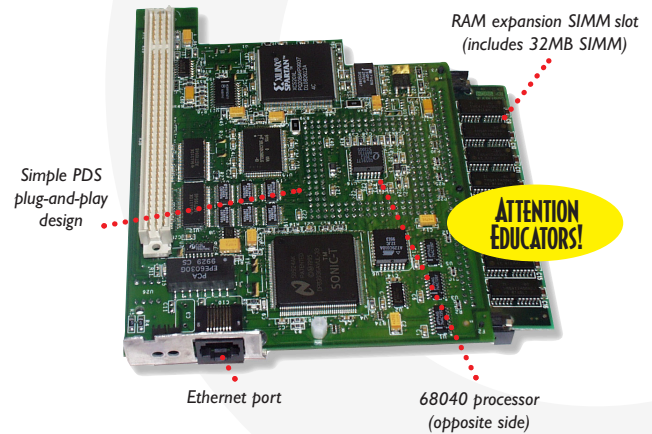

The Presto Plus features a 66/33 MHz 68040 processor, delivering up to a 650% overall speed improvement and can be configured with an optional FPU (math coprocessor) for faster mathematical calculations. The onboard RAM expansion SIMM slot includes a 32MB SIMM, adding to the existing RAM in your system.

100% Compatibility

The Sonnet Presto Plus is the only 68040 processor upgrade card that allows you to run virtual memory, RAM Doubler, 68040-based applications and games, Mac® OS 7.1 through 8.1.

Simple Installation

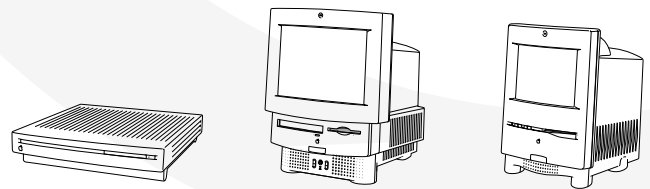

Installation of the Presto Plus is easy—simply plug it into the PDS slot of your Macintosh. Sonnet backs the Presto Plus with an industry-leading, three-year limited warranty and free technical support.

Compatibility

Compatible Macintosh Models

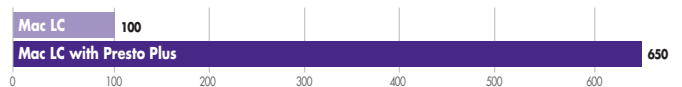

- Mac LC, LC II, LC III, LC III+, LC 520, LC 550
