

TEMPO™ SATA EXPRESS 34

SERIAL ATA HOST ADAPTER FOR EXPRESSCARD/34 SLOT

NEW

Part No. TSATAII-E342P

SATA On-the-Go

Sonnet's Tempo SATA Express 34 ushers in a new level of higher disk performance capability for the mobile professional. Whether you capture and edit video content in the field, the studio, or home, Tempo SATA Express 34 sets the bar high for mobile storage products.

The Tempo SATA Express 34 controller has two external, 3Gb/s, SATA II ports, and plugs directly into a MacBook Pro (15" or 17") or Windows notebooks with an ExpressCard (54) or ExpressCard 34 slot.

Imagine connecting up to 10 drives(1) for high-performance applications, such as Apple's Final Cut Pro. With two external SATA drives attached in a RAID 0 array, the Tempo SATA Express 34 can typically achieve sustained disk write and read speeds of 100 and 110 MB/sec, respectively, which is about three times as fast as USB 2.0 or FireWire connections to the same drive setup.

Offering native SATA speed in a compact mobile package, Sonnet's Tempo SATA Express 34 redefines the definition of disk speed for the creative person on-the-go.

Compatibility

- ▶ MacBook Pro (15" and 17")
- ▶ Any Windows notebook with an ExpressCard/54 or ExpressCard/34 slot.

Key Features

- ▶ Two eSATA ports
- ▶ 3 Gb/s per SATA II controller port
- ▶ FIS-based Port Multiplier-aware to support up to 10* disk drives
- ▶ Supports Mac OS® X and Windows XP RAID
- ▶ Drive activity LEDs

What's Included

- ▶ Tempo SATA Express 34 controller card
- ▶ User's Guide
- ▶ 1-year warranty

Important Notes:

Western Digital manufactures Desktop edition (WD Caviar, Caviar SE, Caviar SE16, and Raptor X) hard drives and Enterprise (RAID) Edition (WD RE, RE2, and Raptor) hard drives. Each type of hard drive is designed to work specifically in either a desktop computer environment, or connected to a RAID controller (hardware or software-based). If you intend to configure Western Digital drives in a RAID set, Sonnet and WD recommend using only their Enterprise edition hard drives. For more information, see the Product Page (http://www.sonnettech.com/product/tempo_sata_express34.html)

- * Support for 10 drives require the use of drive enclosures employing port multipliers (like Sonnet's Fusion 500P). When using an enclosure without a port multiplier, Tempo SATA Express 34 will support 2 drives.
