

Windows Users—Using the Card Reader For the First Time

1. With it turned on, connect the card reader to your computer.
2. An *Approve New Thunderbolt™ Devices* window appears. From the drop-down menu select Always Connect, and then click OK.

All Users—Inserting and Removing Cards

- To insert a CFast card, push it into straight into the slot, parallel to the top cover of the reader, until it stops; do not force a card into the slot, as you may damage the card or the slot connector.
- Before removing a card, be sure to “eject” or “Safely Remove” its mounted volume; otherwise, data on the memory card may be corrupted.
- To remove a card, pull it straight out of the slot.

Quick Start Guide

for SF3™ Series – CFast™ 2.0 Pro Card Reader

SF3 Series — CFast 2.0 Pro Card Reader Description

1 – Power Indicator

These LEDs light when the reader is connected to a computer and CFast cards are inserted into the slots.

2 – Card Slots

3 – Thunderbolt 3 Connector

Plug this into one of your computer's Thunderbolt 3 ports (often indicated by a ⚡ logo), or at the end of a Thunderbolt device chain. Ports marked with the USB icon (🔌) are NOT compatible.

Mac® Driver Information

The drivers required to support the SF3 Series — CFast 2.0 Pro Card Reader are installed as part of macOS® 10.12.6 and later; there are no preparation steps for using the reader with your Mac.

Windows® Users Preparation Steps

To enable the SF3 Series — CFast 2.0 Pro Card Reader to work with your Windows computer, please do the following:

1. Update your computer's BIOS to the latest version.
2. Confirm your computer is running, or update to, the latest Thunderbolt software.
3. Confirm your computer is running, or update to, a 64-bit edition of Windows 10 (64-bit Edition Version 1809 or greater).
4. Go to www.sonnettech.com/support/kb/kb.php, and then click the Pro Media Readers link. Locate and click the SF3 Series CFast 2.0 Pro Thunderbolt 3 Card Reader link, and then click the Driver link. Locate, download, and install the appropriate drivers.

Known Issues/Advice

- The Sonnet CFast reader is compatible with all major brands of CFast 2.0 cards. Wyse brand CFast 2.0 cards are not compatible.
- The Sonnet CFast reader's captive Thunderbolt cable remains firmly connected at all times. Should the cable ever break, you can easily replace it with a Sonnet-approved Thunderbolt 3 (40Gbps) cable.
