

Quick Start Guide

for Mobile Rack Device Mounting Kit Mac Pro® Migration Edition

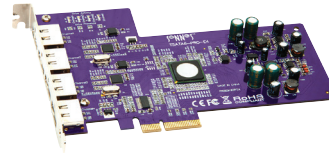

Congratulations on your purchase! With the installation of the Mac Pro Migration Edition Mobile Rack Device Mounting Kit in your Echo™ Express III-R or xMac™ Pro Server, you can connect three of your own 3.5" HDDs or SSDs to your computer. The instructions in this guide offer an overview of the steps necessary to install the kit and PCIe card to your Echo or xMac enclosure. Detailed instructions are contained in the user's guides you received in this package and with your Echo or xMac system.

Package Contents

One Mobile Rack Device Mounting Kit Assembly (bracket with attached power supply and fan, 3.5" drive cage)

One Tempo™ SATA Pro 6Gb 4-Port Card

Three eSATA-to-Internal SATA Cables

Mobile Rack Device Mounting Kit User's Guide

3.5" Hard Drive Cage User's Manual

Package of Cage Mounting Screws, Keys

Installation Overview

1. Remove the Mobile Rack Device Mounting Kit assembly, PCIe card package, cables, and hardware from the outer box.
2. Locate the cable passthrough opening next to the assembly's fan, and then remove the plastic grommet by pushing it out from inside the assembly.
3. Route the three SATA data cables through the cable passthrough opening, and then plug them into the drive cage's connectors. *Note that the connectors with the backward L-shaped opening connect to the drive cage.*
4. Wrap the grommet around the cables, and then reinstall the grommet into the bracket.
5. Referring to the Mobile Rack Device Mounting Kit user's guide, install the Mobile Rack Device Mounting Kit assembly and the included PCIe card into your Echo Express III-R (Chapter III – Installation Steps, B – Echo Express III-R Kit Installation Steps).
6. Referring to the 3.5" Hard Drive Cage User's Manual, insert your 3.5" drives into the drive cage.
