Quick Start Guide
for Mobile Rack Device Mounting Kit Mac Pro® Migration Edition

Congratulations on your purchase! With the installation of the Mac Pro Migration Edition Mobile Rack Device Mounting Kit in your Echo™ Express III-R or xMac™ Pro Server, you can connect three of your own 3.5" HDDs or SSDs to your computer. The instructions in this guide offer an overview of the steps necessary to install the kit and PCIe card to your Echo or xMac enclosure. Detailed instructions are contained in the user's guides you received in this package and with your Echo or xMac system.

Support Note: In order to reduce the operating noise level of this Mobile Rack Device Mounting Kit, the fan in the installed drive cage enclosure has been disconnected.

Sonnet designed the kit with a large exhaust fan, and has confirmed through testing that it provides more than adequate cooling for installed drives in this configuration, and delivers much quieter operation as a result. Please note that if you, for whatever reason, remove the drive cage enclosure for use elsewhere, you should reconnect the fan.
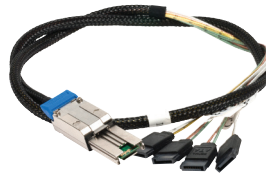

Package Contents

One Mobile Rack Device Mounting Kit Assembly (bracket with attached power supply and fan, 2.5" drive cages)

One ATTO H680 8-port SAS PCIe Card

One 4-port Mini-SAS to 4-port Internal SATA Breakout Cable

Mobile Rack Device Mounting Kit User's Guide
3.5" Hard Drive Cage Installation Guide
Packages of Cage Mounting Screws, Keys

Installation Overview

1. Remove the Mobile Rack Device Mounting Kit assembly, PCIe card package, cables, and hardware from the outer box.

2. Locate the cable passthrough opening next to the assembly's fan, and then remove the plastic grommet by pushing it out from inside the assembly.

3. Route the four SATA data cables through the cable passthrough opening, and then plug three of them smaller connectors into the drive cages' ports.

4. Wrap the grommet around the cables, and then reinstall the grommet into the bracket.

5. Referring to the Mobile Rack Device Mounting Kit user's guide, install the assembly and the included PCIe card into your Echo Express III-R or xMac Pro Server.

6. Referring to the 3.5" Hard Drive Cage User's Manual, insert your 3.5" drives into the drive cage.
